

# PRICE ADJUSTMENT FOR OPTICS AND LAMPHOLDERS

## Substantial increases in raw material prices

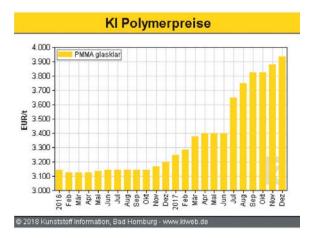

As a globally leading manufacturer of lighting components and systems, it is our policy to ensure price fluctuations on raw material markets are handled in a responsible manner. As a result, we have succeeded in largely offsetting such price increases for you as a customer with the help of sustainable cost-saving measures. However, we have now arrived at a point at which we can no longer absorb these higher raw material costs, especially with regard to polymers.

For this reason, it has now become necessary to offset a portion of these higher costs by raising the prices of some of our products.

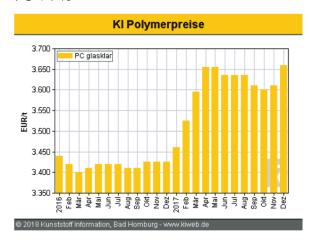

### **Price Increases for Polymers**

(Source: Polymer Prices, Kunststoff Information (Polymer Information), Bad Homburg)

PMMA + 25%

PC + 7%

Despite the considerable increase in raw material prices, we are actually raising our prices for VS optics made of PMMA and PC by only 4%!

### PRICE ADJUSTMENT FOR OPTICS AND LAMPHOLDERS

#### **Copper Price Increases**

(Source: DEL Copper Prices)

Copper + 30%

With regard to copper, raw material prices even soared by 30% within the space of only a year – with a knock-on effect for **fluorescent**, **halogen and Edison lampholders as well as accessories**, whose prices will have to be **increased by 5%**.

## Price increases take effect on 1 March 2018

These price increases will become effective on 1 March 2018. We assure you that no effort will be spared to continue providing you with high-quality products and systems, as well as comprehensive services, on competitive terms.

We look forward to serving your lighting needs in the future,

yours faithfully
