GO FULL CIRCLE WITH THE NEW K33 COMPACT DRIVER FAMILY FROM VOSSLOH-SCHWABE

- Very low ripple (< 3% at 100 Hz)
- Available with strain relief for remote mounting
- Wide output voltage range
- Common footprint

- Multiple output via terminal selection
- Lowest losses at optimum thermal management
- 0.5% ripple at 100 Hz
- 17–45 W (400–1050 mA)

- LEDset configurable current output
- Lowest losses at optimum thermal management
- 0.5% ripple at 100 Hz
- 4–45 W (150–1050 mA)

- Lowest cost
- Single current output
- 16–42 W (350–1050 mA)

- Configurable output by DIP switch
- DALI dimmable
- 16–38 W (300–1050 mA)
