

**CREATING MODULAR LIGHT RIBBONS**

**LED Line SMD L14/28/56/70/75/112 – The new generation has arrived!**

By now, these slim-line SMD PCBs with a width of only 20 mm are available in six lengths with ZHAGA-compliant dimensions and a new generation of SMDs.

Homogeneous light ribbons of almost any length can be created by combining these modules with different lumen packages. Furthermore, these SMD modules come with a service life of 60,000 hours (L80/B10) – and are covered by a 5-year product warranty.

**Further characteristics of SMD Linear Modules**

- Higher efficiency: up to 183 lm/W
- 3 different lumen packages:  
700 lm / 1400 lm / 2100 lm @ 280 mm/350 mA
- 2 connection options:  
plug-in terminal on top or underneath

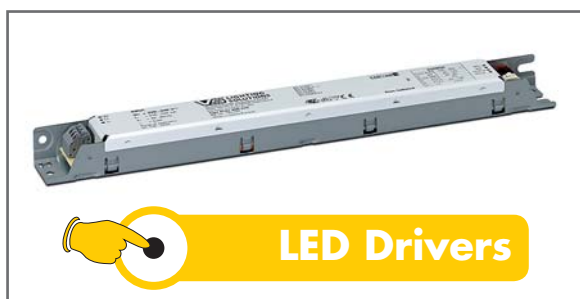

**LED Line SMD W2 – Gen. 3**

**Outstanding LED Drivers**

Our range of linear LED drivers is constantly growing. Follow the link and see for yourself.

We look forward to receiving your order.
