

LINEAR LED DRIVER – SELECTABLE CURRENT USING THE LEDset STANDARD

COMFORTLINE LED DRIVER FOR LINEAR LIGHTING

- Dimmable via DALI / PUSH
- Selectable current: 350–700 mA in acc. with LEDset standard
- Hybrid dimming (analogue und PWM)
- Power factor: 0.97
- Suitable for direct voltage operation
- Long service life: up to 100,000 hours
- Output ripple: < 1% (< 1 kHz)
