1. DATA AND FACTS

Business activity

- Full-range provider of energy-efficient LED and light management systems
- Development, production and sale of lighting technology components

Workforce

Total employees: 1,070
(as at: February 2016)

Locations

Urbach
Kamp-Lintfort
Lüdenscheid
Oschatz
Svilajnac / Serbia
Sarsina / Italy

Subsidiaries

Worldwide about 20 subsidiaries

Central warehouses

Ettlingen (near Karlsruhe) Germany
Singapore

VS and the Environment

Almost all VS locations are supplied with energy generated only from renewable sources. Almost all production sites are certified in accordance with ISO 14001:2004 and are thus committed to pursuing a continuous improvement process with regard to their corporate environmental policies

Turnover

207 million per annum
(as at fiscal 2015/2016)

Board

Setsuo Mizusawa, CEO
Klaus Breisch
Hermann Kratschus

1. DATA AND FACTS

Headquartered in Germany, Vossloh-Schwabe has been a member of the global Panasonic group since 2002 within the lighting sector and counts as one of the technology leaders. Vossloh-Schwabe's range of products and services covers the entire field of classic lighting technologies.

Vossloh-Schwabe is not merely a provider of top-quality system solutions for the lighting industry, but above all makes a competent and innovative contribution to setting market trends in the field of LED lighting. Numerous VS project solutions implemented on the basis of entire LED systems are currently satisfying the high requirements placed on energy efficient lighting all over the world.

Continuing to provide all components needed in the field of conventional lighting technology, VS' extensive product portfolio covers all lighting components: LED systems with matching control gear units and state-of-the-art control systems (LiCS) as well as electronic and magnetic ballasts and lampholders.

Employing approximately 1000 people in more than 20 countries, Vossloh-Schwabe is represented all over the world. As a subsidiary of the Japanese Panasonic Group, VS can draw on extensive resources for R&D as well as for international expansion activities.

A highly motivated workforce, comprehensive market knowledge, profound industry expertise as well as eco-awareness and environmental responsibility show Vossloh-Schwabe to be a reliable partner for the provision of optimum and cost-effective LED lighting solutions.

Vossloh-Schwabe's dedication to delivering superior quality is reflected in its ISO 9001 certification. One of Vossloh-Schwabe's particular strengths lies in providing customised solutions, from individual LEDs to complete LED modules with special spectral distributions or the development and production of application-specific optics.

2. SMART LIGHTING

Intelligent light – At any time

An office floor lamp that gets brighter as soon as someone comes near or an exhibition space in a museum in which, upon being entered, a video starts and a matching light ambience is created as if by magic – smart lighting delivers the right kind of light when it's needed. The result is a level of convenience that facilitates creativity and is efficient at the same time. Our smart products make lighting more intelligent and also open up new potential.

For instance Dim ONE. In its SMART version, the stylish dimmer comes with numerous light scenarios and is super easy to operate using a tablet or smartphone via Bluetooth. And luminaire manufacturers can integrate or retrofit this lighting smartness with our latest wireless controllers of the XSW series.

Outdoor lighting is also getting an intelligence boost – with customers receiving a solution that suits the requirements of the respective task at hand. From intelligent island solutions to networked light management, various product suites are available, all of which can be freely combined.

3. HONG KONG INTL LIGHTING FAIR (AUTUMN EDITION)

Lighting Solutions for Retail and Office Applications

The fast advancement of LED and digital technologies has created unlimited possibilities for today's lighting solutions. Shifting market dynamics are encouraging lighting suppliers to think outside the box to create groundbreaking solutions. At Vossloh-Schwabe we strive to deliver the latest in innovative "Smart" lighting solutions and experiences. Highly efficient LED systems, combined with intelligent light control solutions and matching optic attachments to ensure optimum light distribution guarantee the right kind of light for almost any application when and where it's needed.

Discover the latest LED developments in 'Retail' and 'Office' lighting applications with interactive demonstrations, personalised lighting control and easy to use out-of-box solutions. Try out our new digital phase-cut LED dimmer with Bluetooth® SMART a stylish 'must have' device for smart homes and residential applications.

Easy integration established in our LiCS light management systems provides an immediate and noticeable savings potential and ensures full compatibility and reliability in the application.

■ LED LINE SMD KIT 3R – LED Modules for Office Lighting

- Long service lifetime: 50,000 h (L80, B10)
- Highly efficient: Up to 172 lm/W at $t_p = 50^\circ\text{C}$
- Flexible light distribution by different optics

■ LUGA Shop Gen. 5 – Retail and Industrial Lighting

- Long service lifetime: 100,000 h
- Narrow colour tolerances
- 2 step MacAdam (CRI 85/95)
- High electrical isolation due to ceramic COB technology

■ Light Controller XSW-E6 – Wireless Solution for DALI Luminaires

- Wireless configuration/control of DALI luminaires
- Push function (15 synchronised EBs)
- ON/OFF function
- Stairwell function (Timer function)

■ DimONE Bluetooth® LED Dimmer – Wireless Solution for DALI Luminaires

- Connectivity and designed for applications up from 3 W to 300 W with phase-cut dimmable LED modules
- State-of-the-art dimming device supports synchronisation with mobile device clock and double tapping on the device calls the next scene
